ChargeTime USB-C
TA-7835

ALARM CLOCK WITH USB TYPE-C™ and TYPE-A CHARGING

ChargeTime USB-C is a high specification, hotel grade alarm clock with industry leading charging capabilities, yet at an affordable price. Featuring one USB Type-C™ port and two front-facing USB Type A ports, guests can conveniently recharge their mobile phones, watches and tablets without having to search the guest room for a suitable outlet.

ChargeTime USB-C is also about simplicity and security. The snooze bar across the top doubles as a display dimmer and a simple sliding switch on the side enables the single-set alarm. Furthermore, battery backup of time and alarm settings along with a secured power cord and an optional lanyard ensures complete peace of mind.

Available in either black or white soft-touch finishes, ChargeTime USB-C is sure to blend perfectly with your guest room decor.

FEATURES

- Alarm clock with high current USB charging.
- Clear, simple design makes ChargeTime USB-C really easy for guests to use.
- USB Type-C™ can charge the latest phones and tablets up to 5V 3A.
- In addition, two USB Type A sockets can charge up to 5V 2.4A each.
- Single set alarm ensures subsequent guests are not disturbed.
- Alarm snooze
- Clear, large, dimmable LED display.
- Power cable is secured by a retaining cover to prevent theft, a lanyard is also included.
- Battery backup retains time and alarm setting if there is a power failure.
- Available in soft-touch black or white to blend with the guest room decor.

ChargeTime USB-C I TA-7835
