About Us

At Neo2C, we design and deliver premium power and charging solutions that meet the exacting standards of the hospitality industry. Our products are tailored for the needs of interior designers, FF&E specifiers, architects, and procurement teams who demand both functionality and aesthetic excellence.

From wall-mounted sockets to wireless charging pads, desktop hubs, and in-desk modules, each solution is crafted to integrate seamlessly into guestrooms, suites, lobbies, and public areas—enhancing the guest experience while complementing your design vision.

With bespoke finishes, custom configurations, and eco-conscious options, Neo2C ensures your spaces are equipped with technology that reflects your brand, supports guest comfort, and stands up to the rigours of hospitality environments

Our wall-mounted power and charging solutions integrate to blend seamlessly into hotel interiors while providing guests with reliable, fast, and guest-friendly access to power. These solutions are designed for today's connected travellers, with versatile USB-A, USB-C Power Delivery, and universal outlet options, all customisable to match your décor and branding.
