

Universal Connectivity, Content Sharing, Power, Charging, Audio

Neo2C is led by the latest customer and technology trends which impact the demand for products and solutions to be supplied by hotels to enhance the guest experience from check in to check out, including ad hoc customers attending meetings, conferences, events, health spa, food and beverage areas for social and business activities.

Neo2C offers **connectivity, audio, power and charging**, such as:

- USB-C
- Wireless Charging
- Audio
- Alarm Clocks
- Media, Audio, Power and Charging Connectivity
- Guest accessories
- Travel adaptors

From established hotel chains to new developments, Neo2C will help supply and advise on a key range of state-of-the-art technology and products to support current, future and legacy guest requirements that hotels may consider as part of the overall or brand specific scope for enhancing the guest experience.

Our experience and relationships within the hospitality industry ensure an end-to-end transparency on product specification or value engineering for hotels, operators, franchisees, independents and extending to nominated suppliers including consultants, interior and building design teams, contractors, FF&E, OS&E, purchasing organisations, AV, IT, network organisations and of course the hotel operating team.
